

## The numbers which are divided by two and not divided by three

In this section we will first determine the numbers which are contained in the index of Qur'ān that are divided by two and not divided by three. Then, we will investigate whether a mathematical harmony exists between them or not.

In the following list, the numbers contained in the index of Qur'ān which are divisible by two and not divisible by three are marked:

List-62

 Now, let us divide the numbers contained in the index of Qur'ān according to their homogeneity with respect to “divisible by two and being not divisible by three”.

 Example for the surahs with homogeneous sequence numbers and number of ayats:

2 Al-Baqarah 286

Al-Baqarah is a homogeneous surah. Forwhy, both the sequence number and the number of ayats, meet the condition of “divisible by two and not being divisible by three”. Therefore, al-Baqarah surah is homogeneous in this respect.

1 Al-Fātiḥa 7

Surah al-Fātiḥa is also a homogeneous surah. Forwhy, neither the sequence nor the number of ayats, meets the condition of “divisible by two and not being divisible by three”. Therefore, al-Fātiḥa surah is homogeneous in this respect.

 Example for the surahs of which their sequence numbers and number of ayats are not homogeneous:

8 Al-Anfāl 75

The sequence number of al-Anfāl surah meets the condition of “divisible by two and not being divisible by three”, whereas it's number of ayats does not cover this condition. Therefore, al-Anfāl surah is not homogeneous in this respect.

7 Al-A'rāf 206

The number of ayats of al-A'rāf surah meets the condition of “divisible by two and not being divisible by three”, whereas it's sequence number does not cover this condition. Therefore, al-A'rāf surah is not homogeneous in this respect.

*The surahs which are homogeneous with regard to “divisibility by two and not being divisible by three” of the sequence numbers and the number of ayats are distributed in equal numbers in the first and second half of Qur’an.*

*What about the non-homogeneous surahs?*

Now, let’s examine the non-homogeneous surahs with the same approach.
